

Bringing Historical Enrichment Programs into the Classroom

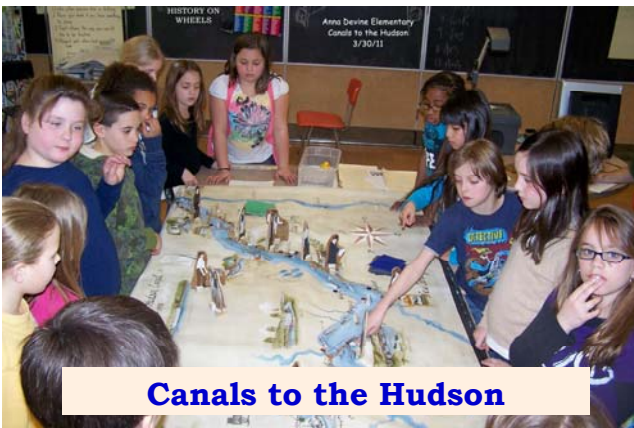

## What Teachers Have Been Saying About History on Wheels Programs...

Mr. Albert's programs engage students in learning history and allowing them to be part of a different time period. The materials and props he brings to each presentation allow students to visualize perspectives of the past. He is a suspenseful storyteller. *(Kinry Elementary)*

History on Wheels is the answer to field trip dilemmas. No bus or chaperones needed. The children are captivated by the hands on activities and talk about it for weeks after the visit. They learn a lot and have fun doing it. *(Coxsackie Elementary)*

Mr. Albert showed great commitment to his work and making sure the students of all levels were engaged. The students, as well as the teachers, enjoyed his enthusiasm for History. The students had higher-level thinking activities as well as on 4th grade level thinking to answer and complete. Mr Albert provided a game atmosphere with competition concepts staying at a minimum so that the History Facts did not get lost. This whole program was a terrific reinforcement for our 4th grade Social Studies curriculum. *(Fishkill Plains Elementary)*

A superior program for engaging young learners in Colonial history. *(Kinry Elementary)*

I was very pleased with the ease of organizing this program for the students. I was able to see part of the Document Detectives program and was amazed how the 5th graders were totally engaged. There was nothing but positive feedback from all the students. Thank you so much. *(Chester Elementary)*

Wonderful program! The kids loved Document Detectives. *(Chester Elementary)*

We have been having Mr. Albert's History on Wheels programs come to our school for several years. Mr. Albert is able to catch the students' attention and enthusiasm immediately, and keep it. The programs are all well organized and interesting. They go along beautifully with, and enrich, the New York State curriculum for fourth grade!

They are easily scheduled to coincide with, and enrich, the curriculum as each topic is covered. My students enjoy Mr. Albert's programs and look forward to each new one! *(North Park Elementary)*

**Scalpel and Sage**

History on Wheels is an absolutely amazing program! The hands on activities are engaging and entertaining. The content immediately comes alive and students will continue to make connections long after Mr. Albert's visit. All students will benefit from these experiences. *(North Park Elementary)*

Our students really enjoy Mr. Albert's visits. He interacts well with the students and makes history come alive. I appreciate the in-depth research he completed to make his programs accurate and authentic. *(Coxsackie Elementary)*

History on Wheels provides students with a different aspect of the past beyond the textbook. Through art, artifacts, and primary documentation, History on Wheels brings meaning and understanding of the past. The new program, New Netherlands' Children, provides many tactile opportunities such as creating a human time line using a rope and clothespins really allows the students to feel the expanse of time. Carrying wooden water buckets to bring home the idea of "heavy" and actually playing with toys of that time period. The PowerPoint lesson was a nice way to share large artifacts with the students. The lesson as followed up by an interactive, historically accurate game called "Last Family Standing." My students were engaged, excited, and learned! *(George Washington Elementary)*

The children look forward to Mr. Albert's presentations. He involves them in the programs and has a good balance of information and entertainment. *(Kinry Elementary)*

Mr. Albert is an engaging presenter! The kids find him very amusing and entertaining! *(Marlboro Elementary)*

Presenter was engaging - great sense of humor! Students really enjoyed trying to figure out the document as well as writing with the quill pens. Outstanding - Thank you! *(Chester Elementary)*

This (River & Revolution) was a great program - it really reinforced and introduced new concepts covered in 4th grade Social Studies. *(Fishkill Plains Elementary)*

Everyone was involved; they were excited and seemed to enjoy the whole program. *(Fishkill Plains Elementary)*

Great way to involve students with history! *(Chester Elementary)*
